

I just want to say that I would hate to see the WI No call weakened, I am thoroughly frustrated with the calls that still come through even though I am on the No Call List, it would have to be 3 times worse if this item gets modified. I was getting anywhere from 6 to 10 calls daily from Telemarketers and that is not what my phone is for. If I want to buy something I have enough sense to seek out what I am looking for and to ask about it then, I don't need to be pestered at home.
